Rule 620-6-.02(5): "In addition to all other recordkeeping requirements, the licensee shall maintain reports of all monitoring, inspections and/or reinspections of the structure(s), baits or baiting systems and devices under contract. Such reports shall be provided to the property owner and a copy shall be maintained by the licensee for inspection by the enforcement agency, in a reasonable amount of time, for a period of two (2) years. The reports shall include the date of the monitoring, inspection or reinspection, name of the person performing the monitoring, inspection or reinspection and whether or not Wood Destroying Organisms or signs of termite activity were found."

OWNER'S STATEMENT DECLINING A COMPLETE RETREATMENT

Property address	Contract no.

Rule 620-6-.07(5): "Any structure under contract with a licensee found by either the licensee or the Enforcement Agency to have three or more separate areas of active infestation from subterranean termites within a five (5) year period shall receive a complete retreatment in accordance with the Minimum Adequate Treatment Standards."

Separate areas of active infestation within five years	
Date found	**Where in the structure**

Complete retreatment offered	
Type of treatment offered	**Date offered**

I understand that the structure at the address above has had three or more separate areas of active subterranean termite infestation within five years while under contract, and that the company has offered a complete retreatment. I decline the complete retreatment.
