Release date: 10/14/2026 Release time: 10:30 a.m. Approximate exposure period: About 20 hours

What the rules require

02 NCAC 34 .0808(a) The dwelling or place of business to be fumigated and all parts thereof shall be vacated by human beings and domestic animals during the fumigation operation. In addition, dwellings or enclosed spaces which are physically joined to or in contact with or within ten feet of the structure to be fumigated shall be vacated by human beings and domestic animals during the fumigation and ventilation periods.

02 NCAC 34 .0802 The certified applicator or licensed structural pest control operator in charge of the fumigation operation, shall not permit or allow any unauthorized person or any domestic animal to enter or re-enter the structure or enclosed space fumigated until he has personally checked said structure or space with suitable gas-detecting equipment or monitoring device and found the structure or enclosed space safe for occupancy by human beings and domestic animals.

Items to remove and other precautions

02 NCAC 34 .0807(f) The certified applicator or licensed fumigator shall, prior to the fumigation operation, advise the property owner or holder of such materials, such as food and drugs, which may be contaminated or damaged by the fumigant(s) to be used and shall hand said property owner or holder a printed list of items to be removed from the structure(s) or enclosed space(s) as required on the registered label of the fumigant to be used, and other precautions to be taken by the property owner or holder.

1. Take out all people, pets, and other animals, and any house plants you want to keep.
2. Remove food, drugs, medicines, and tobacco not in factory-sealed plastic, glass, or metal containers.
3. Or double bag those items in the Nylofume bags we leave you. Check the refrigerator and freezer too.
4. Open the seal on any mattress or pillow in a waterproof cover, or take it out of the house.
5. Turn off pilot lights on the water heater, range, dryer, and gas logs. Unplug electric heaters.
6. Open interior doors, closets, cabinets, drawers, and appliances such as the washer, dryer, and ovens.
7. Leave us a house key, and tell us about any pipe or duct that runs to a building next door.

Service of this notice

02 NCAC 34 .0807(e) Notice of warning must be served by the certified applicator or licensed fumigator upon the adult occupant responsible for the structure(s) or enclosed space(s) to be fumigated not later than three hours in advance of and before any fumigation operation. If adult occupant responsible for the structure(s) or enclosed space(s) is not present, said notice of warning shall be attached in a conspicuous manner on the entrance or entrance(s) to such structure(s) or enclosed space(s) occupied by human beings.

☑ Handed to the adult occupant ☐ Attached to the entrance(s) Date served: 10/12/2026 Time served: 4:20 p.m.

Fumigator in charge *Luis Navarro* Date 10/12/2026
