Licensee or permit holder	Plot given to structure owner	Date given	Licensee or permit holder signature
W. Dale Pickering, Lic. 8042	Clearwater Homebuilders, LLC	08/12/2026	*W. Dale Pickering*

Rule 115(11): A complete plot or diagram giving the dimensions and shape of the property pretreated shall be given to the structure owner and one copy shall be maintained by the licensee.

Rule 118.05(1): All perimeter treatments must be performed within one year of treatment of the horizontal barrier.

Rule 116: Reporting of work for pre-construction treatments must be done upon completion of treatment of each construction phase (e.g., treatment of footing, treatment of horizontal barrier, treatment of dried in phase, treatment of exterior perimeter).

ELECTRIC METER BOX SIGN

Rule 118.05(1): Upon completion of a perimeter treatment, the technician shall post a weather resistant durable sign to the exterior electrical meter box attached to the structure that was treated. The sign shall be a minimum size of 3.5 inches by 1 inch and give company name, company address, name of licensee or permit holder, the date of the perimeter treatment and a statement that the notice should not be removed.

Print at actual size (100%). Each sign is 3.5 by 2 inches. Cut on the dashed lines, then laminate or seal each sign before you post it.
