Your termite contract with us calls for a re-examination of the property above before the contract's expiration date and every year after that. The re-examination checks the outside and the inside of the structure.

We made the efforts listed below to schedule this year's re-examination, but we were not able to get in. The re-examination was not performed.

☐ Copy kept in operator's customer file

Rule 115(8): The annual reexamination must include an exterior inspection and interior inspection of the structure. However, where the efforts of the pest control operator to schedule an inspection have been unsuccessful because the customer has failed to respond to the pest control operator or to make their premises available for an inspection, the pest control operator shall be relieved of the responsibility to perform the inspection provided the pest control operator has made reasonable efforts to perform the inspection and notified the customer in writing the inspection was not performed. A copy of this notification shall be maintained in the pest control operator's customer file.
