4 What the inspection does not cover

The inspection is not an exploratory probe, a warranty, or a guarantee. The inspector is not required to use specialized equipment such as thermal imaging, moisture meters, or drain cameras (22 TAC §535.227(a)(3)), or to inspect anything buried, hidden, latent, or concealed (22 TAC §535.227(d)(1)(D)).

The inspector does not determine the presence, absence, or risk of asbestos, lead-based paint, mold, mildew, or other environmental hazards (22 TAC §535.227(d)(3)(B)), does not judge life expectancy or code compliance (22 TAC §535.227(d)(3)(F)), and does not give repair cost estimates (22 TAC §535.227(d)(15)).

If no date is written here, the inspector delivers the report within two days of receipt of payment in full, or within two days of completing the inspection if payment in full is received before the inspection (22 TAC §535.222(a)).

The inspector may attach this agreement to the report or put its terms in the report's "Additional Information Provided by the Inspector" section (22 TAC §535.223(3)(M)).
