NOTICE OF FUMIGATION

To all occupants of the building

Washington
Fire code 2603.3 (WAC 51-54A)

IFC 2603.3 Written notice of any fumigation or insecticidal fogging operation shall be given to all affected occupants of the building, structure or space in which such operations are to be conducted with sufficient advance notice to allow the occupants to evacuate the building, structure or space. Such notice shall inform the occupants as to the purposes, anticipated duration and hazards associated with the fumigation or insecticidal fogging operation.

Building to be fumigated: 615 North Yakima Avenue, Tacoma, WA 98403 (Pierce County)

Occupancy: Single-family home | Adult occupant: Philip Varga | Phone: (253) 555-0138

Fumigation company: Puget Sound Fumigation | WSDA license No.: 73906

Company address: 3402 South 38th Street, Tacoma, WA 98409 | 24-hour phone: (253) 555-0162

Operator in charge: Garrett Lindahl | Applicator license No.: 69472

Purpose (pest to be controlled): Anobiid (powderpost) beetles, Hemicoelus gibbicollis, in the crawl space framing and subfloor

Fumigant: Vikane (sulfuryl fluoride 99.8%) | EPA Reg. No.: 1015-78 | Warning agent: Chloropicrin

Everyone out by: 10/12/2026, 7:30 a.m. | Fumigation begins: 10/12/2026, 11:30 a.m. | Expected re-entry: 10/15/2026, 10:00 a.m.

Hazards

1. Vikane is fatal if inhaled. It has no smell, so you can't tell it's there.
2. Chloropicrin stings the eyes and throat. If you notice that after re-entry, leave and call us.

What the rules require

IFC 2603.3.4 Occupants of the building, structure or space to be fumigated, except the personnel conducting the fumigation, shall be evacuated from such building, structure or space prior to commencing fumigation operations.

IFC 2603.3.1 ...the affected building, structure or space shall be vacated not less than 1 hour before the operation begins and shall not be reentered until the danger signs have been removed by the proper authorities.

Vikane label Only a certified applicator may authorize removal of placards, and only when the concentration of Vikane within the structure where individuals typically stand, sit or lie down, is 1 ppm or less.

Before you leave

1. Take out all people, pets, and house plants. Stay out until we clear the house.
2. Remove or double bag in our Nylofume bags any food, medicine, or tobacco not factory sealed.
3. Open the seal on any mattress or pillow in a waterproof cover, or take it out.
4. Turn off the gas range, water heater pilot, and gas fireplace. Unplug space heaters.
5. Open interior doors, closets, cabinets, drawers, and the washer, dryer, and oven.
6. Leave us a key and tell us about any pipe or duct shared with the garage.

Fact Sheet for Vikane

Vikane label After the parties enter into a fumigation contract, the Fact Sheet for Vikane must be provided to an adult occupant of the structure to be fumigated or of each currently occupied unit in multi-unit structures.

☑ Fact Sheet given to an adult occupant | Date given: 10/06/2026

Delivery of this notice

☑ Handed to the occupant ☐ Left at the door ☐ Mailed or e-mailed | Date: 10/06/2026 | Time: 3:40 p.m.

Operator in charge: *Garrett Lindahl* | Date: 10/06/2026

Adult occupant: *Philip Varga* | Date: 10/06/2026

NOTICE OF FUMIGATION

To the fire code official and fire chief

Washington
Fire code 2603.3 (WAC 51-54A)

IFC 2603.3 The fire code official and fire chief shall be notified in writing not less than 48 hours before the building, structure or space is to be closed in connection with the utilization of any toxic or flammable fumigant. Notification shall give the location of the enclosed space to be fumigated or fogged, the occupancy, the fumigants or insecticides to be utilized, the person or persons responsible for the operation, and the date and time at which the operation will begin.

the location of the enclosed space to be fumigated or fogged

Address: 615 North Yakima Avenue, Tacoma, WA 98403 (Pierce County)

Space to be fumigated: Two-story wood-frame house over a crawl space, built 1908. Whole house under one tarp.
