Terms

Signed before any work. The property owner or owner's agent signs this contract before any control measure is performed (Rule 620-6-.02(2)).

Area treated. For a residential structure of no more than two units, this contract does not limit the area to be treated (Rule 620-6-.02(1)(i)).

Records of the work. The company leaves a pesticide use record after every application, and after it installs or changes a termite control system (Rule 620-3-.02(1)(f)).

Reports after each visit. After each monitoring visit, inspection, or reinspection, the owner gets a report with the date, the name of the person who did it, and whether wood destroying organisms or signs of termite activity were found (Rule 620-6-.02(5)).

Complete retreatment. If three or more separate areas of active subterranean termite infestation are found within five years while the structure is under contract, the structure receives a complete retreatment (Rule 620-6-.07(5)).

Not a promise against termites. Treatment lowers the risk of wood destroying organisms. It does not promise they will never return.

Copies kept. The company keeps this contract, its diagram, the pesticide use records, and any Official Waiver during the contract period and for two years after it expires (Rule 620-6-.02(6)).

Insurance. "The Georgia Structural Pest Control Act" requires all pest control companies to maintain insurance coverage. Information about this coverage is available from this pest control company.
