10 Terms

Not a guarantee. Treatment lowers the risk of termite damage. It does not promise termites will never return. Repairs are covered only if section 8 says so.

Changes to the house. The owner tells the company before adding a room, porch, deck, or slab, or moving soil against the foundation. New construction is covered once the company inspects it and, if needed, treats it.

Written reports. Each reinspection gets a written report. The first inspection's diagram is updated when structural changes are visible or new termites are found (COMAR 15.05.01.14A).

Records. The company keeps a record of each pesticide application, and a copy of each inspection report, for 2 years (COMAR 15.05.01.12 and .14A).

Cancelling. Either party may cancel the yearly renewal in writing. Any cancellation charge is listed in section 8.
