Written reports. Each reinspection gets a written report. The first inspection's diagram is updated when structural changes are visible or new termites are found (COMAR 15.05.01.14A).

Records. The company keeps a record of each pesticide application, and a copy of each inspection report, for 2 years (COMAR 15.05.01.12 and .14A).

Cancelling. Either party may cancel the yearly renewal in writing. Any cancellation charge is listed in section 8.
