STRUCTURAL FUMIGATION RECORD

Vikane label: The information followed by a "(B)" below must be documented before the initiation of the fumigation; other information listed below without a "B" must be documented during the fumigation process, if not before.

(NV): Boxes marked (NV) hold the items NAC 555.410(1)(b) and 555.700(1) list for a fumigation with a restricted-use pesticide, such as Vikane.

1. General information					
Fumigation company (B)			NDA business license No.		Job No.
Company address and phone					
Fumigation site address (B) (NV)					County
Structure type (B)			Target pest(s) (B)		
Site treated (NV)		The purpose for which the pesticide was applied (NV)			
Customer's name (NV)		Customer's address (NV)			

2. Fumigant introduction					
a. Dosing calculations					
Dosage factor	Tarp condition	Under seal type	Seal condition	Underseal	Wind (mph)
Volume of fumigated space (1000 cubic feet) (B) (NV)		The area of any turf or ground treated (NV)		Dose (oz/MCF)	Number of fans
Temperature	Hours of Exposure	Temperature at the start (NV)		Wind velocity and direction at the start (NV)	
b. Introduction of chloropicrin and sulfuryl fluoride					
Certified applicator responsible for introduction			NDA license No.	Signature	
Second trained person(s) and certified applicator(s) assisting with introduction					
Total ounces of warning agent chloropicrin introduced		Number of introduction sites		Date of fumigant release (NV)	Time fumigation started (NV)
Fumigant brand name and EPA Reg. No. (NV)		Cylinder serial number(s) of sulfuryl fluoride applied		Pounds of fumigant applied (NV)	Time release finished

Fumigation site address (B) (NV)	Job No.

3. On-site checks

Check	Rule	Date, time, or name
☐ Supervising certified applicator “Physically present at the premises being fumigated”	NAC 555.510(2)	
☐ One certified applicator and one supervised person present “During the release of the fumigant” and “Until the ventilation and aeration process is complete and the warning signs are removed from the premises”	NAC 555.510(3)	
☐ “A complete label and any supplemental labels” on the premises	NAC 555.510(5)(a)	
☐ Site-specific fumigation management plan on the premises, “if required”	NAC 555.510(5)(a)	
☐ The antidote, “if any,” and its instructions on the premises	NAC 555.510(5)(b)	
☐ Written notice to occupants, and Fact Sheet for Vikane to an adult occupant	IFC 2603.3; label	
☐ Fire code official and fire chief notified “in writing not less than 48 hours” before closing	IFC 2603.3	
☐ Warning signs at or near all doors and entrances, and on the tarp	IFC 2603.3.1; label	
☐ Watchperson on duty “at the entrance or entrances” until “properly ventilated and safe for occupancy”	IFC 2603.3.3	

4. Supervisor contacts

NAC 555.700(4): “Have contact with any applicator under his or her direct supervision at least once every hour at night and at least once every 2 hours during daylight hours.”

Date	From and to	Applicator or watchperson contacted	How	Supervisor’s initials

5. Emergency response information

Get exposed person to fresh air. Call 911 or an ambulance. Keep exposed person warm and at rest. Make sure person can breathe freely. If breathing has stopped, give artificial respiration. Do not put anything in the mouth of an unconscious person.

Hospital nearest to the site (name and address)	Product emergency phone (from the label)

Fumigation site address (B) (NV)	Job No.

6. Aeration

Certified applicator responsible for initiating aeration	NDA license No.	Signature

Certified applicator(s) and second trained person(s) assisting with initiating aeration

Date aeration initiated	Time aeration initiated	Aeration procedure (1 or 2)	Minimum hours before re-entry

7. Final clearance testing

Certified applicator responsible for conducting final clearance testing	NDA license No.	Signature

Certified applicator(s) assisting final clearance testing

Date final clearance testing completed	Time completed	Clearance device model type

Breathing zone readings, 1 ppm or less in each room before re-entry

Room or area	ppm	Room or area	ppm

Cleared for re-entry (date and time)	Placard removal authorized by (certified applicator)

8. Venting, cleanup, and finish

IFC 2603.6: At the end of the exposure period, fumigators shall

- ☐ "safely and properly ventilate the premises and contents"
- ☐ "properly dispose of fumigant containers, residues, debris and other materials used for such fumigation"
- ☐ "clear obstructions from gas-fired appliance vents"

Date fumigation finished (NV)	Time fumigation finished (NV)	Temperature at the finish (NV)	Wind velocity and direction at the finish (NV)

9. Comments

NAC 555.410(1): "Keep accurate and legible records for 2 years of each property treated"
NAC 555.700(1): "Keep and maintain an accurate and legible record of each property treated with a restricted-use pesticide for 2 years"
